

January 25th, 2021

Dear Parents,

From both personal and professional standpoints, I cannot accurately express my gratitude for your support. Such a pleasure to be greeted each day with the smiles and comments from your children. I love and share their thirst for learning and for investigating questions. We are solution opportunists!

I. Morning Classes-<u>The two workspaces remain the same with Religion/Family Life embedded through each day.</u> Times: 9:15-10:15 am, 10:30-11:30 am Conference time: 11:30-12:00.

This week we will continue to explore and apply our knowledge of poetic elements by finishing our Selfie Poem and writing two different types- student choice. In reading, we will be reviewing how to write a Level 4 reading comprehension answer (R.A.P.P.) and having group and individual practice. In Math, we continue with number sense puzzles, esti-mysteries, ratios, unit rates and starting measurement conversions.

2) My Afternoon class has Mme. Rossi each day, except Thursday. They will be completing synchronous learning with her from 1-1:45 and with me from 2:30-3:30. My afternoon classes this week will focus on Dance, Science, Health and Visual Art.

This week students will continue to finish presenting their Aviation Adventurer Project and we will go forward with investigating the properties of air-experiments will be done virtually by Mrs. Lewis and students will follow the Scientific Method of Inquiry in live time. (Wherever possible, I will record the experiments for student reflection.)

On Thursdays, My afternoon class will be in the Meet from 1-3:15 with a built in recess break. Workspaces are pictured below.

ART- WinterTo investigate all the awesomeness of Visual Arts.

Modified: Jan 4

Dance Fever!
Fun Movement!!!!

Modified: Jan 4

Each day, students are asked to join the scheduled Google Meet through their Student Portal by clicking on the Meet icon and then Mrs. Lewis' AM or PM Class.

Partners in Education,

D. Lewis
